

## Activating Your New Token

1. Start by visiting [www.americanafinancial.com](http://www.americanafinancial.com). (You may bookmark this page for easier login later.)
2. Using the same User ID that you have used in the past, log into your customized online banking site. (You will no longer need to choose “Business” from the drop-down menu.)

**Bank@1234** will be your temporary password.

- a. Enter your User ID and click “Sign In”.
  - b. Input your temporary password (**Bank@1234**) on the second screen.
3. Once you have input your temporary password, the **PIN Set Up** screen will appear:

Secure Token is a security service to help protect you from fraudulent online activity. You will be required to enter a passcode to access your online banking session. Your passcode will be a combination of your Personal Identification Number (PIN) and a one-time-use code generated by your token device.

**PIN Set Up**

If you have not yet created your PIN, or your PIN has been cleared, enter the token code only and click “Log In” and you will be prompted to create your new PIN.

Security Token \*:  \* Required

To Cancel [Return to Login Page](#)

- a. Enter the 6-digit code shown on the token screen in the box.
- b. You will be prompted to setup a new 8-digit PIN to be used with your new token.  
eBiz does not recognize the PIN you used for the old internet banking site.
- c. After you have created your new PIN, you will be prompted to enter another 6-digit code from the token screen before you can gain access to your eBiz site.
- d. Click “**Log In**”.

e. Your account information should now be displayed.

## Logging in After You've Activated Your Token

1. Start by visiting [www.americanafinancial.com](http://www.americanafinancial.com). (You may bookmark this page for easier login later.)
2. Enter your User ID and click "Sign In." The security token screen will display:

Secure Token is a security service to help protect you from fraudulent online activity. You will be required to enter a passcode to access your online banking session. Your passcode will be a combination of your Personal Identification Number (PIN) and a one-time-use code generated by your token device.

**PIN Set Up**

If you have not yet created your PIN, or your PIN has been cleared, enter the token code only and click "Log In" and you will be prompted to create your new PIN.

Security Token \*:  \* Required

To Cancel [Return to Login Page](#)

- a. Enter your 8-digit **PIN** AND the 6 digit code shown on your token. (Pin should be entered first, then the token password. You will be entering a total of 14 digits with no spaces.)
3. You will be presented with another screen asking you to enter a **NEW** token password. (Wait 30 seconds to have a new set of 6 digits generated on your token.) This screen requires only the code shown on the token **without** your PIN.
    - a. A second password generated by your token will be required each time you try to login to eBiz.
  4. Click "**Log In**"
  5. Your account information should now be displayed.
